

July 14, 2021

## Assignment:

1. Read the General Patton excerpts that are posted on the website.

## Write out your thoughts on the following:

1. List three things that you are afraid to fail at. Discuss the perceived versus actual repercussions of failing at them. Do you think you will attempt them wholeheartedly?
2. Talk out Patton's quote: "Any [person] who is afraid of failing will never win! Any [person] who is afraid to die will never really live!" Think about it in terms of racing...and in terms of other aspects of your life.
3. How can a saying, such as the author's, "Don't hesitate! Amputate!" help you get through hard times? How can you apply this to strengthening the bond of your team?

\*One assignment that you have as a leadership group this summer is to come up with a fun (not morbid) saying that we can put on t-shirts for all the kids who participated in summer running. Start now making memories with all of these kids so that the slogan means something to everyone. We need to have the slogan by the end of July in order to get shirts printed.
